

**TOWNSHIP OF CHESTERFIELD**  
**BURLINGTON COUNTY, NEW JERSEY**

March 25, 2020

Dear Chesterfield Residents,

On March 21, 2020, Governor Murphy enacted Executive Order No. 107 directing all residents to stay home until further notice. As he said in his press conference, we are at war with an enemy that cannot be detected. I cannot emphasize enough to follow all the recommended procedures for social distancing and personal hygiene. When you do have to go get food and supplies please practice social distancing and recommended hygiene procedures set by the CDC.

During this time, the Township is closed except for essential employees on a modified schedule. The employees are working remotely and have access to their emails and voicemails. Please use these means of communication and you will get a reply from them. The Township Committee will also be monitoring their emails as well. As more information comes to us from the State and County, we will relay that information to you through the Township website.

I hope that everyone is well and remains well. I know that some are scared, as I am also, for the health of everyone and our economic future. Right now, we can look at this time as an opportunity to finish that project that was started or start a new one, visit with loved ones via the technology available to us, take a walk to clear your thoughts or have a catch with your son or daughter. I always use the excuse of "I wish I had the time". Well that is not an excuse anymore. Use this time for those things because before you know it we will be back to our normal schedule and saying "I wish" again.

I would like to thank all the first responders, doctors, and nurses and the essential staff that have to go out and fight this war for us. Please say a prayer and keep them in your thoughts daily. I believe that when we come out of this, our community will be stronger than before because I believe in this community!

Sincerely,

Mayor Jeremy Liedtka
